Security System - At last April's Community Meeting it was reported that the initial security project was halfway done, but that the remainder of the project was on hold until a source could be identified to power cameras mounted on our light poles. Tyco, the security company, eventually reported that they wanted to power the cameras by digging a trench from the office to the light pole where the first set of cameras would be located. This might have worked since the first light pole was nearby. However, as far as the Board was concerned, this was a non-starter because of the inconvenience to affected land owners and because of the difficulty and extra expense involved in eventually expanding the security system to the rest of the park. Instead the Board asked Tyco to suggest other alternatives. They agreed, but never followed through. As a result, the Board has asked Tyco to terminate our agreement with them and to remove the equipment already installed. To this point, no funds have been spent nor does the Board expect any to be spent on this project at this time. Alternative security plans will be considered and presented to the community.

Rumor-The Mobile Manor Social Club disbanded.

Status-False. However, they did drop their incorporated status in order to save expenses associated with being a corporation.
