

Integrity Plumbing changed out the back flow valve mandated by Lee County today. As indicated in their estimate our water would be shut off from 9-5 and our water went on exactly @ 5:00. Larry and Ken Doolin observed the work and reported a good job. The few residents that called the office had neglected to check their door for the notice that was taken around to everyone on Friday.

It was a successful day as Larry had the opportunity to replace four valves that were causing problems. Many thanks to Bill for working hard to find Integrity, Larry for a job well done, to Ken Doolin making himself available to help where ever it was needed and Paul Lacourse for posting signs.

Our board is working together to make Mobile Manor a better place.

Thank you.
